

Agilities[®] for Elementary Sample Resources

Empowering young minds to discover their potential
and build confidence for a brighter future.

Agilities

BY THE DEBRUCE FOUNDATION

© 2023

Welcome

Thank you for your interest in building an Agilities © classroom for your students. The DeBruce Foundation values your role in creating a learning environment that is real, relevant, and connected to the work skills students need across their lifetime. The Agilities framework, tools, and resources will help you create an environment for students to learn more about themselves and to build confidence in their skills. These sample resources help educators begin creating an Agilities Classroom. An Agilities Classroom focuses on students' strengths and helps make connections to future pathways. Together, we can build the foundation for all students to feel empowered in their education and future careers.

The DeBruce Foundation Mission

The DeBruce Foundation is a national foundation whose mission is to expand pathways to economic growth and opportunity. The Foundation is committed to helping individuals unlock their potential and find career pathways. By developing solutions such as the [Agile Work Profiler©](#), we change how people pursue careers. By partnering strategically, we increase experiences and exposure to widen career opportunities, starting with youth and working across the lifespan.

What are the Agilities?

The Agilities are a group of 10 work activities that are found in different amounts in every job.

Your Top Agilities

What you're currently good at & what you like to do.

Can change over time and be developed!

10 Agilities of Work

Why Agilities?

These sample resources help educators begin creating an Agilities Classroom. An Agilities Classroom focuses on students' strengths and helps make connections to future pathways. The Agilities Classroom embraces teaching students all the Agilities and providing spaces for students to explore their interests and skills. Through this process, students will also discover the value they add to their community and environment and be able to communicate that value.

Build Awareness about Agilities

Develop and Explore All Agilities

Build Confidence and Self-Esteem

Foster Essential Skills Development

Lessons foster
creativity,
independence,
problem-solving,
collaboration, and
self-awareness.

Agilities
BY THE DEBRUCE FOUNDATION

Creating an Agilities© Classroom for Elementary

PURPOSE OF RESOURCE

An Agilities Classroom focuses on students' strengths and helps make connections to future pathways. The Agilities Classroom embraces teaching students all the Agilities and providing spaces for students to explore their interests and skills. Through this process, students will also discover the value they add to their community and environment and be able to communicate that value. This guide helps you create this environment in any setting.

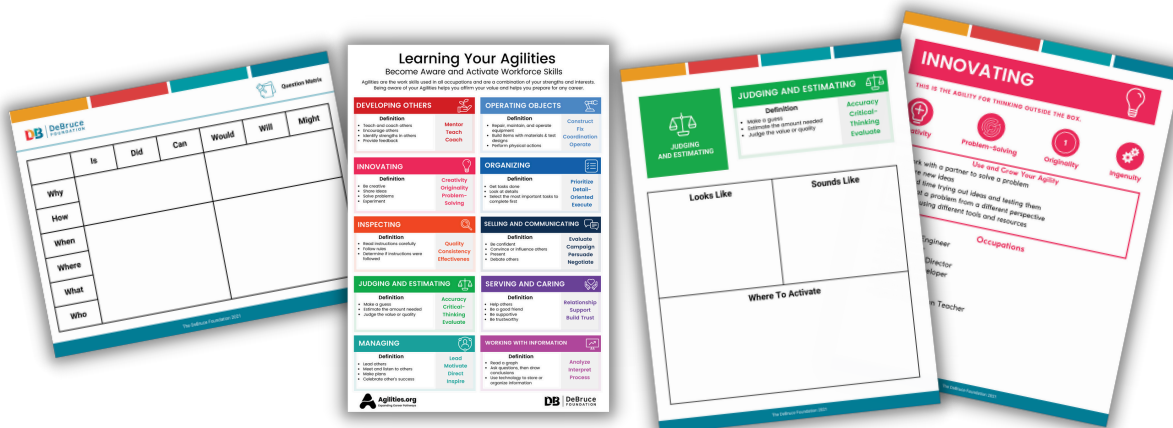

VISUAL ENVIRONMENT

Utilizing an Agilities poster, one-pagers, and student-created imagery around the Agilities encourages students to use the concepts and to remind you as the leader to reference the Agilities regularly. Balancing between pre-made resources and student partnership-created materials is best for the environment to allow students to take ownership of their learning while ensuring the information they are referencing is correct.

Many lessons include printable visual resources or guides for creating larger posters that are interactive to use with your group of students.

Consistently incorporating, drawing attention to, discussing the Agilities, and using the visuals as support encourages students to engage with the concepts. Remember, that many students rely on visuals to help them learn, remember, and apply learning.

LANGUAGE

The way that we speak about the Agilities, about students' interests and skills, and the way we allow students to talk about these things is extremely important.

Knowing your Agilities is a great place to start! Take the Agile Work Profiler to examine how your interests and strengths intersect. Then take some time brainstorming how you see your Agilities in your work environment.

Understanding the differences between the Agilities can be tricky. Use the Leveraging Your Agilities one-pager and the Learning Your Agilities one-pager to learn more about key terms surrounding each Agility and possible work tasks. Being able to help students see these differences is an act of **INSPECTING**.

During individual and group conversations, be mindful to keep all opportunities and options open. Students are sensitive to your perception of them and will attach the labels you give them to their own identities. The purpose of the Agilities is to open pathways and opportunities for students. Avoid using limiting language such as "Being an astronaut would be cool, but that takes a lot of work, and you have to take a lot of science classes". Instead, use opportunity-focused language, "Being an astronaut sounds like a cool job! What do you think you would need to do or learn to make that happen?"

GROUP WORK

Group work is essential for students to develop collaboration and interpersonal skills. Selecting group members can be helpful to encourage participation and diversify the groups. When selecting groups, take into account the strengths of each student. For example, placing two students who are strong at **MANAGING** into one group makes it difficult for the group to self-select a group leader or even to follow one.

This means that separating students into "like ability" groups based on their strengths and interests is the best format. It is not recommended to sort students into team groups where all members have the same top Agility.

However, if the class is doing a large group project, it might be helpful to allow students to self-select their groups which tend to break apart into similar Agility partners. If this happens naturally, this is a great way for students to decide to divide up work towards their goal.

COMMUNITY INVOLVEMENT

Incorporating the local community and persons involved in specific career fields increases your students' knowledge and connectedness to outside resources. For example, if the class is working on growing plants and examining their parts, you could ask a local greenhouse grower or farmer to come to talk about how their job relates to what they are learning.

Asking local community members, including students' family members, can be a tricky process. Start by asking your administration what the process would be for inviting guest speakers.

Another option is to have someone record a video message or host a video conference call. It is helpful to prepare the outside speaker with the topic the class has been learning about, possible student questions, and any goals you have for the time.

How to Prepare a Community Member or Expert

1. Provide the Leveraging Your Agilities one-pager
2. Recommend they take the Agile Work Profiler
3. Provide context around what the class is studying and why you think that relates to their work
4. Suggest talking points to help focus the group conversation
5. Ask the person to identify how they use their Agilities in their line of work

Learning Your Agilities

Become Aware and Activate Workforce Skills

Agilities are the work skills used in all occupations and are a combination of your strengths and interests. Being aware of your Agilities helps you affirm your value and helps you prepare for any career.

DEVELOPING OTHERS

Definition

- Teach and coach others
- Encourage others
- Identify strengths in others

DEVELOPING OTHERS

THIS IS THE AGILITY FOR RECOGNIZING AND CULTIVATING OTHERS' TALENTS.

Coach

Teach

Evaluate

Mentor

Use and Grow Your Agility

- Teach someone a skill that comes easily to you
- Give advice or tips to someone who is learning a new skill
- Explain how things work to a new student
- Reteach someone a skill when you can see they aren't doing it correctly
- Encourage someone during the learning process
- Provide praise during the learning process to reward small progress

Occupations

- Sports Coach
- Scout Leader
- Training Specialist
- Health Education Specialist
- Instructional Coordinator
- Dietitian and Nutritionist
- Financial Advisor

Agility in Action

School

- Help your table partner with a hard problem

Home

- Show a sibling how to do something
- Teach a grandparent how to use their phone

Extras

- Cheer on your team members learning how to do something

INNOVATING

THIS IS THE AGILITY FOR THINKING OUTSIDE THE BOX.

Creativity

Problem-Solving

Originality

Ingenuity

Use and Grow Your Agility

- Work with a partner to solve a problem
- Share new ideas
- Spend time trying out ideas and testing them
- Look at a problem from a different perspective
- Create using different tools and resources

Occupations

- Materials Engineer
- Art Director
- Producer or Director
- Software Developer
- Makeup Artist
- Historian
- Special Education Teacher

Agility in Action

School

- Make up a game for friends at recess
- Offer new ideas during group work

Home

- Find a shortcut to doing your chores
- Use your toys to build new things

Extras

- Work with your teammate to create a strategy

INSPECTING

THIS IS THE AGILITY FOR MONITORING COMPLIANCE WITH RULES AND STANDARDS FOR QUALITY, SAFETY, AND EFFECTIVENESS.

Quality

Consistency

Effectiveness

High Standard

Use and Grow Your Agility

- Learn about how something is made
- Help a friend fix something by reading the manual or watching instructional videos
- Create a guide for how to do something
- Test out better ways to get a job done
- Compare if a product matches the guidelines
- Evaluate how effective a process or outcome is

Occupations

- Electrical Drafter
- Court Reporter
- News Analyst
- Pest Control
- Tax and Financial Preparer
- Probation Officer
- Carpenter
- Nurse or Nursing Aid

Agility in Action

School

- Check your work against a rubric or set of directions

Home

- Help a relative with a task and learn how to do it by yourself
- Test a new way to fold and put away your laundry

Extras

- Use a video to learn a new skill with a friend

JUDGING AND ESTIMATING

THIS IS THE AGILITY FOR HAVING SOUND JUDGMENT AND CRITICAL THINKING.

Accuracy

Critical Thinking

Evaluate

Perceptive

Use and Grow Your Agility

- Predict the outcome of a TV show, video, or news article
- Help a friend make an important choice
- Advise your team on how much time is needed for a project
- Determine quality resources to complete tasks
- Recognize patterns in situations
- Decide on the value of a product

Occupations

- Floral Designer
- Tree Trimmer
- Brickmason
- Animal Breeder
- Commerical Cook or Chef
- Anesthesiologist
- Pilot or Co-pilot

Agility in Action

School

- Set a time goal for your classwork and check how close you were to being correct

Home

- Pause a movie at home and share what you think is going to happen

Extras

- Notice when an opponent keeps making the same move in a game

MANAGING

THIS IS THE AGILITY FOR SUPERVISING PEOPLE AND SITUATIONS TO ACHIEVE POSITIVE OUTCOMES.

Lead

Direct

Inspire

Motivate

Use and Grow Your Agility

- Lead a volunteer project
- Build a positive team environment
- Assemble resources needed to complete a task
- Divide group tasks among team members
- Set a goal for your team
- Cheer on team members during group work

Occupations

- Engineer
- Fashion Designer
- Orthodontist
- Food Scientist
- Purchasing Manager
- First Line Supervisor
- Postmaster or Mail Superintendent

Agility in Action

School

- Get group materials for a project
- Chunk tasks based on your groups strengths

Home

- Tell family members that they're doing a great job while doing household chores

Extras

- Share a goal with your team based on previous success

OPERATING OBJECTS

THIS IS THE AGILITY FOR WORKING WITH MACHINES, TOOLS, AND DEVICES.

Constructing

Fixing

Coordination

Dexterity

Use and Grow Your Agility

- Build something for a friend in need
- Repair broken items around the house or classroom
- Run equipment like computers, cameras, and phones
- Be physically active
- Work with tools

Occupations

- Mechanical Engineer
- Lighting Technician
- Elevator Installer
- Electrician
- Radiation Therapist
- Mechanic
- Computer Technician
- Firefighter

Agility in Action

School

- Fix your school computer
- Play games at recess with balls, jump ropes, swings, or other materials

Home

- Help a parent build something like a shelf or bookcase

Extras

- Join a club where you get to build robots or create clothing

ORGANIZING

THIS IS THE AGILITY FOR CREATING AND MAINTAINING ORDER IN WORK TASKS.

Prioritize

Coordinate

Execute

Detail-Oriented

Use and Grow Your Agility

- Plan a trip with friends or family
- Coordinate a volunteer event
- Help a classmate organize their locker or work space
- Plan the steps to complete a project
- Monitor the resources available for a task or project
- Pay attention to details
- Take notes and keep records

Occupations

- Community Health Worker
- Recreation Fitness Studio Director
- Soil and Plant Scientist
- Production Manager
- Concierge
- Archivist

Agility in Action

School

- Help a classmate clean out their desk or backpack
- Create a task list for your project

Home

- Help a parent make a grocery list for the week

Extras

- Check to make sure your team has enough snacks for a game

SELLING AND COMMUNICATING

THIS IS THE AGILITY FOR INFLUENCING AND PERSUADING OTHERS.

Persuade

Evaluate

Negotiate

Campaign

Use and Grow Your Agility

- Convince a friend to start a healthy habit
- Raise money for a cause you care about
- Campaign for a leadership role
- Help classmates resolve a disagreement
- Work directly with people
- Negotiate to improve requirements or potential outcomes

Occupations

- Athlete and Sports Competitor
- Musician, Singer, Actor
- Interior Designer
- Loan Officer
- Fundraiser
- Hearing Aid Specialist
- Lawyer
- Marketing Manager
- Legislator

Agility in Action

School

- Run for student council
- Persuade your teacher to give the class extra recess or a reward

Home

- Convince your family that they should do something you want to do

Extras

- Work as a team for a common goal

SERVING AND CARING

THIS IS THE AGILITY FOR DEVELOPING STRONG SOCIAL RELATIONSHIPS AND HELPING OTHERS WITH THEIR NEEDS.

Empathy

Cultivate

Support

Relationships

Use and Grow Your Agility

- Take care of a friend in need
- Visit an elderly relative
- Create team-building activities for classmates or teammates
- Assist incoming team members as they adjust to their new role
- Listen and empathize with someone's feelings
- Volunteer to help with an organization

Occupations

- Interpreter or Translator
- Umpire or Referee
- Housekeeper
- Healthcare Social Worker
- Library Media Specialist
- Enrichment Teacher
- Restaurant Wait Staff
- Athletic Trainer

Agility in Action

School

- Volunteer to help clean up after a group project
- Listen to a friend who is struggling

Home

- Visit an elderly relative and spend time talking with them

Extras

- Help a new teammate learn the rules to the game

WORKING WITH INFORMATION

THIS IS THE AGILITY FOR WORKING WITH INFORMATION TECHNOLOGY, MANAGEMENT, AND PROCESSING.

Interpreting

Analyzing

Processing

Operating

Use and Grow Your Agility

- Help a family member update the operating system on their phone
- Compare statistics for your favorite sports players
- Create a graph or chart to represent information
- Develop solutions using technology
- Collect data for an event or project
- Give recommendations using information you have collected

Occupations

- Computer Hardware Engineer
- Cartographer
- Technical Writer
- Tax Preparer
- Computer User Support Specialist
- Economist
- Data Entry Worker
- Air Traffic Controller

Agility in Action

School

- Give your opinion on a topic after doing research

Home

- Create a chart to share information with your family (ex. times you do dishes versus your siblings)

Extras

- Take score at a game and talk to your teammates about the results

PURPOSE OF RESOURCE

Introducing "big words" to young students can be intimidating, but even kindergarteners enjoy learning new vocabulary and being able to talk like adults. By scaffolding the development of Agility-specific words, we can empower students in how they see and describe themselves and how they interact with the world. This guide supports how to introduce and scaffold the use of Agility-specific words.

INTRODUCING AN AGILITY

Create an anchor chart similar to the one on the right that includes the Agility, a short definition, and spaces to brainstorm together.

*There are posters titled *Agilities Looks Like Sounds Like Charts* that you can use for this activity.

Start by reading the definition and asking students which keyword stand out to them. This can also include words that are related to the definition but not currently included. For example, a student may say "create" or "make" for this Agility. Use the *Learning Your Agilities* one-pager to help facilitate this part.

As a group, have students brainstorm and share what this Agility looks like and sounds like. Encourage diversity between what this Agility looks like at home, at school, and in the community. Students may also think about jobs or individuals who they see utilize the Agility. Where appropriate, add images that represent students' responses. Student-made images would be great here.

PURPOSE OF RESOURCE

These Agilities Goal-Setting cards are a great visual for whole group goal setting. After you've reviewed a learning objective or project parameters, use these cards to discuss and set goals around which Agilities students will be activating. It's great to have students select the Top 3 Agilities they believe they'll activate and give a short description of how. Post those on an anchor chart or on a whiteboard space. Then, complete the lesson or project you have planned. During the reflection period of the lesson, ask students which Agilities they actually activated and how that elevated their learning. Have students answer the reflection questions displayed below.
